REVISED WORKSHOP NOTICE

TO: All Interested Parties

DATE: January 10, 2008

SUBJECT: REVISED PUBLIC WORKSHOP NOTICE TO DISCUSS A PROPOSED
REGULATION FOR IN-USE ON-ROAD HEAVY-DUTY DIESEL-FUELED
VEHICLES

The Air Resources Board (ARB or Board) staff invites you to participate in the next series of workshops to discuss a proposed regulation to reduce emissions from existing diesel-fueled trucks, buses, and other vehicles operating in the State. As currently proposed, the regulation would apply to nearly all in-use on-road heavy-duty diesel vehicles regardless of where the vehicle is registered. This is our fourth set of workshops since the initial regulatory concept was proposed during public workshops in April 2007.

At the workshops, ARB staff plan to discuss revised proposed regulatory language, preliminary results from vehicle surveys, economic impacts, and additional outreach efforts. Day and evening workshops are planned. The daytime workshops will be held in Sacramento, Fresno, El Monte, San Diego, Redding and Berkeley. Workshops will also be held in the evening in Fresno, Riverside, Redding, and Berkeley. The dates and times are listed below.

Please note that ARB staff has changed the date of the workshops (day and evening) to be held in Berkeley. These workshops were originally scheduled to be held on February 12, 2008. The new date of the Berkeley workshops is February 11, 2008, at the location and times listed below. ARB staff have also added an additional evening workshop to be held in El Centro on February 4, 2008, at the location and time listed below.

The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our website: <http://www.arb.ca.gov>.
